

Grass Experiment, 1 time Herbagreen applied

Sept. 2010

9th September 2010

29th September 2010

Too much shadow for Grass growth

Improved, but still not enough Sun for optimum

plot 2, more Sun coverage

Declining Grass condition

Clear improved Grass density

Critical situation

Clear improved Grass density

Plot 2, additional observation

Critical decline of Grass

Stabilization, need additional spraying for recovery

Critical condition

Also Tree loves Herbagreen and branching out
